

New York State 4-H

Interview Process

Preparing for a job or college interview can be overwhelming and nerve-racking. 4-H youth can get a head start on this endeavor by participating in the New York State 4-H Public Speaking Program's Interview Process. During the Interview Process, 4-H teens will undergo a simulated interview for a job or college entrance with a trained volunteer evaluator.

In the interview process, youth can choose to participate in a job or college entrance interview. The same format will be followed for either choice. The résumé, cover letter and application (written presentation) will be judged based on appearance and content. The oral presentation will be the actual interview using questions selected from a set list . This list is on page 3 of this booklet.

The written presentation documents will be submitted for judging prior to the face-to-face interview. The face-to-face interview should last about 20 minutes. Afterward, the evaluator will review the youth's evaluation sheet and provide positive feedback in a private consultation.
